HARDWOOD FLOORS

*Grounded in History.
Modern in Execution.*

Established in 1948, we are a third generation, family-owned and operated custom wood flooring company. We have always strived and succeeded at being both innovators and artists in our industry. We are a vertically-integrated company who manages rough lumber, to manufacturing, hand texturing, hand finishing, and installation of the best wood flooring and marquetry in our industry.

Since 1948, it has been our mission and daily goal to make the finest wood flooring available in the world. With this attitude in mind, we believe that the floor is a fundamental design feature of a home or commercial space. Knowing this, we believe that it is our duty to educate design professionals—architects, interior designers, contractors and homeowners—about the unique nature of wood and the various ways it can be made to fit the specific lifestyle, design, and construction needs of each project. This specialized treatment, paired with our artisan approach to crafting floors per customer, ensures that each customer gets the finest wood floor available, and ultimately, exactly what is imagined and needed for the project.

These are a select few of our Bespoke offerings, created per project, per design based on the needs and aesthetics of each home. All of these options can be made in Marquetry, Herringbone, and Chevron. We fabricate full custom stair components for anything in this Collection. Everything from width, grade, thickness, and construction can be varied on these offerings.
