DOUBLE OAK

Double Oak is a European Oak with a light-weathered texture and hand-eased edge detail. Double Oak is a multi-step reactive treatment, creating color by reacting with a tannins in the oak, not through a staining process. Double Oak has what we could consider to be the perfect natural brown tone. Double Oak is Finished with our Signature Finish.

0- VOC | CARB 2 Compliant

Radiant Heat Approved

Matching Tread Blanks & Square Stock Nosing

Made in USA

CHARACTER GRADE

Character Grade is cut closest to the center heart of the tree, providing more characteristics of knots, cracks, and natural graining, giving it an “Old World” flooring feel.

LIGHT CHARACTER

Light Character Grade (often referred to as “PIPPY”) is cut slightly further North and South from the center of the heartwood, resulting in less knotting than the Character Grade. Some flooring boards in this grade may be free of knots but may have occasional sap lines along the edges. This grade can offer a more natural and modern appearance.

SELECT

Select Grade is cut furthest from the center Heartwood. This method allows for the cleanest grade, with only a few eraser-size knots. Unlike the other grades, Select is free from Sap Wood, providing a clean, modern look.
